

POONAM BORA

Senior Android Developer | Flutter Developer
Pune, India • +91-7058095012 • poonam.bora1298@gmail.com

PROFESSIONAL SUMMARY

Results-driven Senior Android Developer with 6.5 years of experience building scalable, high-performance enterprise mobile applications using Java and Android SDK. Backed by 2.5 years of hands-on Flutter/Dart development — architecting cross-platform apps with clean state management, REST API integration, and Firebase services. Proven track record of owning full mobile application lifecycle from architecture decisions and code reviews to Play Store deployment and production stability. Adept in MVVM / Clean Architecture, CI/CD pipelines, and Agile delivery. Seeking a senior-level Android or Flutter engineering role in a product-first or SaaS organization.

CORE TECHNICAL SKILLS

Android (Java)	Android SDK, Android Studio, MVVM, Clean Architecture, Jetpack Libraries, Material Design, SQLite, SharedPreferences
Flutter / Dart	Flutter SDK, Dart, State Management (Provider / BLoC), Cross-platform UI, Widget Lifecycle, VS Code
Backend & APIs	REST API Integration, JSON Parsing, Firebase (Auth, Firestore, FCM, Realtime DB), Postman
Performance & QA	App Performance Optimization, Crash Reduction, Memory Management, Debugging, Release Validation
Architecture	MVVM, Clean Architecture, Dependency Injection, Code Reusability, Modular Design
DevOps & Tools	Git, GitHub, CI/CD Pipelines, Agile/Scrum, Play Store Deployment, Build Management

PROFESSIONAL EXPERIENCE

Senior Android Developer / Flutter Developer | **SoftTech Engineers Ltd** July 2023 – April 2026 • Pune, India

Project: PWIMS – Public Works Information Management System | Client: MIDC

- ▶ Architected and delivered Android (Java) and Flutter modules for a large-scale government enterprise application serving thousands of field users across Maharashtra.
- ▶ Owned end-to-end feature development — from requirement analysis and UI design to REST API integration, JSON parsing, testing, and Play Store release.
- ▶ Designed and implemented responsive Material Design UI screens; enforced consistent UX patterns across Android and Flutter codebases.
- ▶ Led performance optimization initiatives — reduced app load time and improved stability, resulting in significantly fewer production crashes.
- ▶ Collaborated with backend teams using Postman for API validation; resolved data synchronization issues and improved real-time data rendering.
- ▶ Drove code review processes and introduced MVVM best practices, improving team code quality and reducing bug re-occurrence.

Project: IPMS – Integrated Project Management System

- ▶ Developed and maintained mobile features for project tracking, task management, and dynamic user workflows used by project managers across client sites.
- ▶ Refactored codebase using Clean Architecture and MVVM patterns, improving code reusability and cutting regression defects.
- ▶ Took ownership of release validation, build support, and deployment pipeline — ensuring on-time, stable releases.
- ▶ Actively participated in sprint planning and cross-functional requirement discussions; consistently delivered features ahead of deadline.

Android Developer | **Evonix Technologies** Jan 2023 – July 2023 • Pune, India

- ▶ Built Android applications using Java, Firebase Authentication, Firestore, and Material Design — delivering production-ready apps from scratch.

- ▶ Integrated push notifications (FCM), data synchronization, and real-time updates to improve user engagement and app reliability.
- ▶ Collaborated closely with backend and QA teams for end-to-end delivery; participated in UAT and supported post-release bug fixes.

Android Developer | Netwin Systems & Software Pvt. Ltd.

Sept 2022 – Jan 2023 • Nashik, India

- ▶ Developed Android applications leveraging Java and Firebase Realtime Database with a focus on UI responsiveness and data handling efficiency.
- ▶ Optimized API data handling and reduced response latency, improving overall app performance.
- ▶ Assisted in production deployment, bug fixing, and application maintenance to ensure continued stability.

Software Developer – Android | AB Market Research Pvt. Ltd.

Apr 2020 – Aug 2022 • Ahmednagar, India

- ▶ Designed and developed Android applications using Java and Firebase, covering requirement analysis through full implementation.
- ▶ Implemented clean coding practices and performance improvements, reducing average app crash rate and improving load efficiency.
- ▶ Contributed across 5+ functional modules in a fast-paced product environment, demonstrating adaptability and full ownership.

Android Developer Trainee | AB Market Research Pvt. Ltd. (Trainee Role)

May 2019 – Mar 2020 • Ahmednagar, India

- ▶ Built foundational expertise in core Android development, REST API integration, and app architecture through hands-on application projects.
- ▶ Developed small-scale Android apps end-to-end, strengthening understanding of the Android application lifecycle.

EDUCATION

Master of Computer Science (MCS)

2019 – 2021

B.P.H.E. Society's Ahmednagar College | CGPA: 8.25 / 10

Bachelor of Computer Science (BCS)

2016 – 2019

Hind Seva Mandal Pemraj Sarda College | 71.05%

KEY STRENGTHS & DIFFERENTIATORS

- ▶ 6.5 years of uninterrupted Android (Java) development with growing Flutter cross-platform expertise — rare dual-stack mobile profile.
- ▶ Enterprise-grade project experience in government digital transformation (MIDC PWIMS, IPMS) — familiarity with large user bases, compliance, and reliability requirements.
- ▶ Ownership mindset: consistently involved across full SDLC — from architecture and development to code reviews, QA, and deployment.
- ▶ Strong communicator with cross-functional collaboration experience across backend, QA, UI/UX, and client-facing teams.
